

For your white-label platform, categorizing these events helps you create **pre-configured templates** in your Lunar/Filament dashboard. When a client spins up a store, they can select a "Store Type," and these event types can auto-populate as options.

1. School Store Event Types

School events are usually high-volume, short-duration "Pop-up" windows or seasonal "Always-on" collections.

Category	Event Types	Key Merchandise / Feature
Academic	Book Fairs, Science Olympiad, Honor Society Induction, Graduation	Commemorative "Class of" tees, tassels, stoles.
Social / Formal	Prom, Homecoming, Winter Formal, Sadie Hawkins	Formal wear accessories, "Promposal" shirts, custom sashes.
Spirit / Pride	Spirit Week, Pep Rallies, Mascot Launch, Founders Day	Face paint, foam fingers, temporary tattoos, mascot plushies.
Athletic	Tryouts, Championship Runs, Senior Night, Signing Day	Performance jerseys, "State Bound" hoodies, stadium blankets.
Creative Arts	Theater Opening Night, Band Competitions, Art Show	"Cast & Crew" hoodies, band polo uniforms, art-printed totes.
Special Days	Picture Day, Field Day, 100th Day of School, Teacher	"Volunteer" shirts, class-color

	Appreciation	tees for Field Day.
--	--------------	---------------------

2. Business & Corporate Store Event Types

Corporate stores focus on professional identity, internal culture, and external marketing.

Category	Event Types	Key Merchandise / Feature
HR / Culture	New Hire Onboarding, Work Anniversaries, Employee of the Month	Welcome kits, "Year 5" embroidered jackets, high-end mugs.
External Marketing	Trade Shows, Product Launches, Client Hospitality, Industry Expos	Low-cost swag (pens, stickers) vs. VIP gifts (tech bags).
Internal Ops	Sales Kickoffs (SKO), Annual Summits, Strategic Planning	Themed "Kickoff" tees, branded notebooks, wireless chargers.
Uniformity	Departmental Rebrands, Seasonal Uniform Refresh (Summer/Winter)	Durable polos, safety vests, branded scrubs for medical.
Corporate Social	Volunteer Days, Charity Runs (5ks), Holiday Parties	"Company Cares" tees, custom holiday ornaments/socks.
Sales Incentives	President's Club, Quarterly Contest Winners	Premium brands (Patagonia, North Face, Yeti) with subtle logos.

3. Specialized / "Hybrid" Store Types

Since you are building a flexible platform, consider these niche opportunities that often use white-labeled stores.

- **Franchise Stores:** Centralized branding for multiple locations (e.g., "McDonald's Regional" or a local Gym franchise).
 - *Events:* Grand Openings, Local Sponsorships.
- **Youth Sports Leagues:** Distinct from schools, these often require high customization (Name/Number on back).
 - *Events:* Opening Day, Playoffs, All-Star Game.
- **Camp Stores:** Summer camps needing "Bunk" kits or pre-order gear.
 - *Events:* Visiting Day, Color War (massive merchandise spike), Final Campfire.

4. Technical Tip: The "Event" Model logic

In your Laravel app, you can create an EventTemplate model. When an admin creates a new store, you can query these templates to help them set up their calendar quickly.

PHP

```
// Database Logic Idea:
```

```
$templates = [  
    'school' => ['Spirit Week', 'Graduation', 'Prom'],  
    'business' => ['Onboarding', 'Trade Show', 'Sales Kickoff'],  
];
```

```
// In Filament, use these to seed a "Quick Add" dropdown for the Calendar repeater.
```

Would you like a "Roster Management" schema draft next? (Since schools need student-to-photo mapping and businesses need employee-to-department mapping.)
